

# Electrical Insulator Rubber Roll

## Technical Data Sheet

**Product:** Marso Electrical Insulator Rubber Roll.

**Code:** MC-001EI

**Dimensions:**

- Width: Up to 1500mm ,
- Length: Up to 10,000mm.
- Thickness:

Thickness (mm)	Color	Withstand Voltage (K.V)	Class	Proof Voltage (K.V)	Material
2	Black	12	1	8	NR & SBR
3	Black	12	1	9	NR & SBR
3	Beige	42	3	38	NR & SBR
4	Beige	79	7	71	EPDM
6	Black	37	3	33	NR & SBR
6	Beige	55	5	50	NR & SBR
6	Gray	81	7	75	NR & SBR
10	Black	51	4	46	NR & SBR
10	Beige	66	5	58	NR & SBR
10	Gray	71	6	63	NR & SBR

**The test report(According to IEC61111) is attached**

**Features:**

- Good electrical insulator.
- Does not react to weather conditions.
- Fire retardant added.
- Anti-acid and oils.
- It has no negative effect on children if directly touched according to our customer feedbacks.
- **Temperature: -15°C TO 100 °C**
- **Proof test voltage: 33000 V**

**Way of installment:**

- Any rubber adhesive or polyurethane is used on a plain surface

# Electrical Insulator Rubber Roll

## Technical Data Sheet

### Application:

- Used as anti-electrical sheets and also in flooring.

**Color:** Black .

### Physical Specifications:

- **Hardness (Shore A):**  $60 \pm 5$
- **Tensile (MPa):** 5 min.
- **Elongation at break (%):** 300 min.

**Life span:** 5:10 years - according to how to use it
